

## Four in a Row: Multiplication and Division by 10, 100 or 1000

0.77	770	777	77.7	7007	7770
7070	707	0.077	707	0.707	777
0.77	0.777	77	770	7700	7.7
770	7070	0.707	0.777	0.77	7.07
77.7	77000	7007	77	77.7	7.7

10	100	1000	7.7	7.07	7.77	77
----	-----	------	-----	------	------	----

This is a game for two players.

Choose 10/100/1000 and either 7.7, 7.07, 7.77 or 0.77

Decide whether to multiply or divide the two numbers together. Cover the answer on the grid with a counter.

The first player to get 4 in a row wins
